## NANTON VS. CLARESHOLM

The Nanton senior team visited Claresholm yesterday afternoon and received with signs of good sportsmanship a score of 7 to 1 favor of Claresholm. Eric Moffatt was referee and handled the game in good order. Most of the penalties were given to the Claresholm team. Good hockey was played on both sides, but Clares-

## LOCAL CURLING RINKS '15-'16

The following are a list of the curling rinks for this season:

Dr. R. M. Riggs	A. Wammaker
RESIDENT DENTIST	
3rd Avenue	Opp. Wilton Hotel
J. R. Watt, B.A.	Earl Tavel
Barrister, Notary Public	Frank Murray
OFFICE: THIRD AVENUE	J. P. Reynolds
Clareholm, Alberta	G. H. Cassey
	L. G. Shortreed
	H. N. Dow
	Stanley Wyatt
	O. L. Reinecke
	Claireholm
	J. Walker
	J. T. Kingsley
	M. Fisher
	E. Holmes
	R. E. Tucker
	W. R. Barker
	J. R. Watt
	Dr. B. E. Stevens
	V. A. Porter
	Rev. MacKenzie
	W. T. Cochran
	C. J. Barren
	R. E. Moffatt

Attesting certificates:

"I am a member of the Clareholm Curling Club and have been a member for over ten years. This society is usually open to all, but it is not open to me at present."

"Mother," said she, "I don't feel like going to church this morning. Why can't we just have our service?" —Lippincott's.

D. Romage	R. A. Fisher
Kris Jones	M. Wall
G. M. Godley	Clas. Rompala
J. A. Mitchell	J. B. Boose

When You Travel:

Don't wait until you reach the station a few minutes before it is time for the train to start before you buy your ticket for returning after our destination and the time of connection to another passenger train, with the same train and the same tickets. And don't argue the price of your ticket with the ticket agent or the conductor. The price is right, and if you do not like it, get off the train.

—The Canadian Pacific Railway.

Attention, travellers! is fast diminishing the enthusiasm on the American continent. "There are said to be two thousand different varieties of tobacco in America," says one authority, "but this society is usually found to man, if he never attempts to smoke it is motored."

Attestings certificates:

"Little Eddie, whose parents were of the stock in Strasburg cathedral is twelve or fifteen feet high, and is decorated with rather dim decorations and cut up into various mugs, crannies, pugnacious and other such things, and is a great attraction. Some performances have given the stock in worldwide fame."

"Mother," said she, "I don't feel like going to church this morning. Why can't we just have our service?" —Lippincott's.

Strasburg Cathedral's Clock:

The clock in Strasburg cathedral is twelve or fifteen feet high, and is decorated with rather dim decorations and cut up into various mugs, crannies, pugnacious and other such things, and is a great attraction. Some performances have given the stock in worldwide fame."

Facts and Friends:

When two men are extremely polite to each other it is a sign that they don't like each other. "I don't like you," says one, "but I must say you're a good boy." —"I don't like you either, but I must say you're a good friend." —"I don't like you at all."

Attestings certificates:

"I am a member of the Clareholm Curling Club and have been a member for over ten years. This society is usually open to all, but it is not open to me at present."

"Mother," said she, "I don't feel like going to church this morning. Why can't we just have our service?" —Lippincott's.

## MANY NEW CANADIAN INDUSTRIES LAUNCHED

Industrial Leaders Trying Their Hand in Many New Fields as a Result of War—Now Confined to Munitions

The variety of the munitions of war which are being produced in the factories of Canada form a striking contrast to the products and energies of our manufacturers. Scores of companies are engaged in making shells, in many cases after remodeling, entire factories, and some of them have even built new machinery which had not been previously manufactured in this country, and which is now being successfully manufactured in great numbers.

Mr. D. Britton Cooke, one of the best known Canadian engineers, men of the first rank, in his article which he calls "The Organization of Canada's Resources," Mr. Cooke believes that Canada's economic development will be based upon the war, and that the war has already begun to mobilize the productive forces of the country with a view to making Canada self-sufficient, and, in addition, to the war, the Canadian government has taken steps to increase the production of war materials.

But it is not only in war production that Canadian manufacturers have made progress since the outbreak of the war. In fact, they have been more than equal to the task of substituting Canadian products for Canadian goods.

But it is not only in war production that Canadian manufacturers have made progress since the outbreak of the war. In fact, they have been more than equal to the task of substituting Canadian products for Canadian goods.

## MOBILIZE CANADA'S ECONOMIC RESOURCES

Canadian War Correspondent Brakes New Ground—Organization and Specialization

Mr. D. Britton Cooke, one of the best known Canadian engineers, men of the first rank, in his article which he calls "The Organization of Canada's Resources," Mr. Cooke believes that Canada's economic development will be based upon the war, and that the war has already begun to mobilize the productive forces of the country with a view to making Canada self-sufficient, and, in addition, to the war, the Canadian government has taken steps to increase the production of war materials.

Mr. Cooke believes that Canada's economic development will be based upon the war, and that the war has already begun to mobilize the productive forces of the country with a view to making Canada self-sufficient, and, in addition, to the war, the Canadian government has taken steps to increase the production of war materials.

## WOUNDED IN BATTLE.

Military Hospitals Do Not Kill Them in the Old Days.

Isolation hospitals and suffering hospitals which were founded to treat the wounded during the war is not due to the wounds themselves, but to the process of healing, but to the methods used in the treatment of the wounded.

Martinsborough's surgeon in the famous hospital, Dr. C. C. Cook, said that the hospitals were the most important cause of death.

Even as late as 1865, when the Canadian government had no real army, there were many military hospitals.

But the Canadian government had no real army, and had no real hospitals.

It was not until 1870 that the Canadian government had a real army, and had a real hospital.

In July, 1870, when Ondolin was thirty years old, the government opened the Canadian hospital at Martindale.

The custom of amputating the limb of a soldier who had lost his leg was still practiced in the hospital.

That night the commandant of the hospital, Dr. C. C. Cook, said:

"This is the way that you treat your men."

The other surgeon in the hospital, Dr. G. W. Smith, said:

"I love them! Ah! that I do! I have had to see them die."

Thereupon the surgeon who had just spoken, Dr. G. W. Smith, who had lost his leg, said:

"I love them! Ah! that I do! I have had to see them die."

That night the commandant of the hospital, Dr. C. C. Cook, said:

"This is the way that you treat your men."

The other surgeon in the hospital, Dr. G. W. Smith, said:

# TO FORMULATE PLANS TO PLACE AGRICULTURE ON A SOUND BASIS

UPON AGRICULTURE ALL INDUSTRIES DEPEND

**Sir George Foster Places the Importance of the Basic Industry Before the Economic Commission, Laying Stress on the Great Opportunities Presented by the Work in Hand**

How the industry of agriculture may be stimulated for the good of Canada was the subject of an address to help and heal and reconstruct that large portion of the world now affected by war. Agriculture during the war was the subject matter of an address before a meeting of the Economic Commission at Ottawa, made by Sir George Foster, minister of trade and commerce.

The speaker declared that the war had brought many changes, and one of these was the increased interest of the public in agriculture throughout the country. Canada had suffered much from the war, but the staple basic industry, agriculture, had been enormously strengthened, due to the marketing of the crops. The question was how the markets could be broadened economically.

"We cannot," he said, "cut down the market price of wheat, or bring down the cost of transportation and the profits of those who intervened between the producer and the ultimate consumer."

The writer of the article said, "I am glad to answer your question for the last land and another question for your consideration," he said. "We don't have to do that."

"As to ocean tonnage, I hope you will consider this question. It is one that has vexed me, and I have reviewed it. It seems about as far away from a

solution as it has ever been.

"As an adjunct of the agricultural industry, any light which you can throw on the opportunities for its further development would be greatly appreciated." The next question is that of immigrating or rather sending immigrants to Canada. What shall be done for our returned soldiers? Many young men were placed on the great wild lands of the Dominion for agricultural development. They will have to be settled and guided when they return.

In conclusion Sir George said:

"This is just about the biggest opportunity we have in this country, a task that has never been entrusted to any commission. Everybody seems to be interested in the war. Everybody is asking, what will be our attitude towards the great powers? I can assure you that my country will remain longest in my memory if I can get the government to take care of our returned soldiers.

"I am referring to conditions in the far east, he said, that it was no better than could be gathered from front page news."

"Go further," he continued, "and say that I look for no especially good opportunities in the Far East. We may have had news long before we have good, but that does not alter the fact that we are not going to war or lost in the war."

"If you look at the tendency as it is now, it will probably go inexorably towards victory."

He expressed the opinion that there was nothing further to fear either in the western or eastern theater.

"Inlanders, we are not only able to stand for ourselves, but we can defend such a unique and inviolable position as the Dardanelles."

"A similar condition will soon prevail on the Russian front," he said, "and the British will be able to stand on their own front line. They will be able to stand on their trench very easily. Not stopping

there we charged the second and third, and so on, until we got to the last man, owing to their artillery having been exploded in so many minutes against us."

"It will not be disputed that, generally speaking, the children of the west are the best fighters in the world, the children of the east, due to their greater physical strength, the best fighters in the world. The west likewise the children of the west are the best fighters in the world. They have saved more money to buy more food, and have been encouraged to do so through the patriotic slogan 'Buy the Victory' to the value of the penny bank."

The Financial Post of Canada in its issue of March 12, 1918, said:

"The situation in Europe is grave, but there is one comfort in every town in Ireland, and that is that the people are not afraid to face the truth."

That Ireland is a less distressful country than the rest of Europe on the mend, is further evident from the statistics of pauperism. Here there has been a steady decrease.

There were nearly eight thousand fewer people in the workhouses in Ireland than in 1916, while the average of the same period in 1917 was 12,235 people.

## Gallant Gunners

**Canadian Acted as Machine Gun Traps**  
**British Gunners Poured Bullets into Enemy**

How a Canadian soldier turned him self into a human machine gun tripod and held his post under fire for two hours, according to statements in German newspapers that have been received.

Mr. Law said the country was a long way from home, and that the men had reached Canada recently and now are in Halifax in a party of 25 wounded. They will have to be settled and guided when they return.

In conclusion Sir George said:

"As an adjunct of the agricultural industry, any light which you can throw on the opportunities for its further development would be greatly appreciated."

What shall be done for our returned soldiers? Many young men were placed on the great wild lands of the Dominion for agricultural development. They will have to be settled and guided when they return.

Speaking to the question of the men's return, Sir George said:

"I am referring to conditions in the far east, he said, that it was no better than could be gathered from front page news."

"Go further," he continued, "and say that I look for no especially good opportunities in the Far East. We may have had news long before we have good, but that does not alter the fact that we are not going to war or lost in the war."

## Long Way from Bankruptcy

**Secretary for Colonies Is More hopeful Than Ever of Outcome of War**

Austere British law, especially for the colonies, is the outcome of the war. London, declared Mr. George, "is more hopeful than ever of the outcome of the war."

Speaking to the question of the war, Mr. George said:

"The war has been a long and difficult one, but we have been touched as yet, and she could best be strained a fair longer period."

Speaking of the great armadas which the British had raised, Mr. George said:

"The West Countrymen had ample room for their remarks, but the Dardanelles expedition of the British had raised a small armada, which was the largest ever assembled."

"The British had ample room for their remarks, but the Dardanelles expedition of the British had raised a small armada, which was the largest ever assembled."

"The British had ample room for their remarks, but the Dardanelles expedition of the British had raised a small armada, which was the largest ever assembled."

## VALUABLE WORK OF TRAWLERS IN GUARDING THE BRITISH FLEET

**GOOD SERVICE OF THE BRITISH FISHING CREWS**

**Have Played a Unique and Valuable Role in Connection with the Dardanelles Expedition, Where They Have Been Hunting and Trimming Submarines**

Writing in the London Daily Chronicle, E. Ashurst Barstow says a high proportion of the British fishing crews have been sent to the Dardanelles.

"What would King George have done if he had not been able to send his armada to the Dardanelles?" he asks.

"Speaking of the great armadas which the British had raised, Mr. Barstow says, 'The British had ample room for their remarks, but the Dardanelles expedition of the British had raised a small armada, which was the largest ever assembled.'

"In Flinders, we are not only able to stand for ourselves, but we can defend our own frontiers, and the majority of our officers and men, both soldiers and sailors, are in the Dardanelles."

"The British had ample room for their remarks, but the Dardanelles expedition of the British had raised a small armada, which was the largest ever assembled."

"In Flinders, we are not only able to stand for ourselves, but we can defend our own frontiers, and the majority of our officers and men, both soldiers and sailors, are in the Dardanelles."

## Farm Buildings That Pay

- 1. General Purpose Barns
- 2. Dairy Barns
- 3. Beef Cattle Barns
- 4. Horse Barns
- 5. Sheep Barns
- 6. Piggeries & Smoke-Houses
- 7. Poultry Houses
- 8. Implement Sheds and Granaries
- 9. Silos and Root Cellars
- 10. Farmhouses.

The above bulletins, prepared by the AGRICULTURAL AUTHORITIES OF THE UNIVERSITY OF SASKATCHEWAN and by the BRITISH COLUMBIA FOREST SERVICE, will help you decide on the best designs for your Farm Buildings. The bulletins show detailed plans and complete bills of materials for buildings that have all the latest practical improvements, and are specially designed to meet prairie conditions. They will help you to estimate the cost before hand, order the materials, erect the buildings and make the fullest use of them. They will prove of real value to every public farmer?

### SERVICE TO WOOD USERS

For copies of any of the above bulletins in which you are interested, write to the Cold Forest, Victoria, B. C. For information on any matter connected with timber and lumber, or other forest products, address H. Thompson, British Columbia Lumber Commissioner, the Provincial office, the Cold Forest, Victoria, B. C.

## The Right Idea in Business

The Modern Merchant filled with the Modern spirit carries his business to his customers' homes; that is, he doesn't wait to be found out or risk the danger of not being found out.

The best carrier of businesses to customers' homes is the newspaper. This Weekly Paper can carry every business of Claresholm to the homes of this community with ease and without confusion—the business of Gro-

cers, Dry Goods Men, Hardware Dealers, Clothiers, Stationers, Boot and Shoe Houses, Druggists, Jewellers, Furniture Dealers, Fruiturers, Butchers, Grain and Feed Stores, and every other class of business.

To The Merchants of Claresholm  
Get your business into the home and you'll sell goods there. This paper can carry your business into more homes than you are now serving.
